

CIGRE CONFERENCE:
For synchronous operation of the East-West interconnection
17 –19 September 2003, Pulkovskaya Hotel,
St. Petersburg, Russia
CONTENTS

01	Keynote presentation of President of ETSO Andre Merlin (France)	
02	Keynote presentation of EURELECTRIC representative (EURELECTRIC Board of Directors) Mirjan Trampuz (Elektroslovenija Deputy Director)	
03	State of UCTE Studies on the Interconnection between the UCTE System and CIS & Baltic States	Chairman of UCTE Steering Committee Frank Vanderberghe (Belgium)
04	Integration Prospects for the Russian and European Power Markets	Executive Board Member of RAO UES Anatoly Zelinsky (Russia)
05	Solutions for Large power Systems Interconnection	Siemens PTD Director Vladimir Sitnikov (Russia), Director of Siemens AG PTD Dietmar Retzmann (Germany), et al.
06	Network Modelling and Model Updates for Large Interconnected Transmission networks	ALSTOM Principal Architect Jay Britton (USA)
07	Managing Joint Synchronous Operation of interconnected Power Systems of the Commonwealth of Independent States under Conditions of Forming Market Relations in Power Industry	Chairman of Executive Committee of CIS Electric Power Council Vladimir Djangirov , Head of Department of Power Engineering Institute Valentin Barinov (Russia)
08	Development of Electric Power System Emergency Control In a Market Environment	Director General of Irkutsk Energy Systems Institute Nikolay Voropay , Senior Researcher of Irkutsk Energy Systems Institute D.Efimov (Russia)
09	Investigation on the Expected Dynamic Behaviour of Very Large Synchronously Interconnected Systems	CESI spa Scientific Manager Bruno Cova et all (Italy)
10	Providing of Voltage Stabilisation and Steady-State Stability for Long Synchronous East-West Interconnection in Europe	St.Petersburg Technological University, Head of Department G.N. Alexandrov (Russia)
11	New Generation of Turbogenerators for Voltage Control in Power Networks under Market Conditions	VNIIE Institute Deputy Director Yury Shakaryan , OAO «Electrosila» Ibrahim Kadi-Ogly et al (Russia)
12	The questions of opening up Azerbaijan Power System into parallel Synchronous Operation with Russia and Iranian Power Systems	OAO Azerenergy CDO Head Nurali Usifov , AzNIIE Deputy Director Asaf Guseinov (Azerbaijan)
13	Main trends of the electric power market development in the CIS countries	Head of the CIS Joint Working Group on Electric Power Market Development, Deputy CEO of FGC of UES Vladimir Dorofeev (Russia)
14	Development of Interconnectors and Power transfer between Finland and Russia	Leading Expert of Fingrid Oy, Jarmo Elovvara et al (Finland)
15	Power Flow Control of Circular Grid of Intersystem Links of Russia and Finland Power Systems	Director General of Energosetproject Institute, Igor Gluskin , Head of Department FGC UES Yury Kucherov , GIP Institute, Georgy Butin et al. (Russia)
16	Realisation of the East-West Interconnection Project should Start with a Full-scale Experiment	Novosibirsk Power Systems Emergency Control Laboratory, A. Grobovoy (Russia), Tractebel Power Systems Operation Technical Manager Marc Stubbe (Belgium), Professor of Ecole Polytechnique Federal Alain Germond (Switzerland) et al.
17	Preparations for Synchronous Operation of the UPS of Russia and NORDEL	Director General of Northwest Power Control Center Vasily Sinyansky (Russia)
18	Facilitating of Cross-border Electric Power Exchange by means of FACTS	ABB Area manager Rolf Grunbaum (Sweden)
19	Benefits of FACTS for Large Power Systems	Siemens AG Managing director Wilfried Breuer (Germany), Siemens AG Consultant Director Dusan Povh (Slovenia) et al.
20	Co-operation strategy for neighbouring interconnected energy system.	CEO of SO CDU UES Victor Pauli (Russia)
